

THE XAVIERIANS SPEAK

RESPECTED VIEWERS /READERS

Good wishes from St. Xavier school, Khatima. I, Sr Natal BS, the principal of this esteemed temple of education, am happy to present our Annual Report 2024-2025. We have completed seven years of excellent existence with uprisng milestones here. This year we have updated ourselves up to class XII. This academic session our students will appear for the first time in the senior secondary level exam of Central Board of School Education (CBSE). The academic year 2024-2025 began on 2nd April 2024, with 27 new admissions. This academic year is going on with many learning activities for the students. This year we have focused on the theme of **Samarpan** a commitment towards spreading the green, saving the blue and sacrificing the red.

EXPERTIZING THE MENTORS

In this temple of education, the teaching and supporting staff are the real back bones. We have 30 qualified teaching staff and 10 non-teaching staff as our menders. In order to refresh and update themselves, we had organized three days of seminar cum workshop combined with St Francis School Tanakpur. They have also attended the seminar organized by the board. Our manager time and again addresses them to become more expert in the field of education.

VIDHYA AARAMBH

To have a feeling of school entry we have facilitated Vidhya Aarambh ceremony along with the parents of the newly admitted kids.

GRADUATION CEREMONY

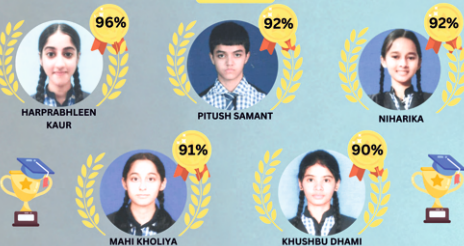

Our little schools are the future of the society. The UKG passed students are formally admitted into class I.

ACADEMIC ACHIEVEMENT

St Xavier School is proud of getting 100% results in class X board exams for two consecutive years. In the last academic year 2023-2024, 37 students appeared in CBSE class X exam and all of them passed with good marks. Conducting periodic external and internal tests in CBSE pattern help the students to evaluate their academic growth.

CBSE Grade 10th Result 2023-2024

The Management, Principal & Staff Congratulate all the students for their outstanding performance.

LEARNING THROUGH ACTIVITY

The new education policy (NEP2020) insists on more activity-oriented education. In fact, the young minds learn better by doing it. Keeping this in mind we have arranged various activities, like Art and Craft, Model making, Rangoli making and the competitions like Quiz, Speech, Debate, Fancy dress, Singing, Dancing etc. were organised for the students.

OBSERVANCE OF IMPORTANT DAYS AND FESTIVALS.

To have respect for our mother land, great personalities and the traditions, we do encourage our students to celebrate important days like Republic Day, Independence Day, Labours day, Teachers' day, Gandhi Jayanti, Mothers' day, Girl Child Day, Kargil day etc. and festivals like Holi, Diwali, Eid, Christmas etc. for imparting a sense of social responsibility.

SEMINARS AND WORKSHOP

We have organized seminar for adolescent girls and boys on brain re-coding and self-defence techniques. Girls were trained on their puberty growth and care. Professionals from nearby hospital explained to our children regarding the balanced diet.

PHYSICAL WELL BEING

We are engaged in the holistic development of our students, along with academic excellence. Sports and games help our growing children to have healthy personality. We had introduced Taekwondo with formal dress. Yoga, sports meet and regular games were organized systematically for the wellbeing of our students. We have also updated the school with centralized RO drinking water system. Many new indoor and outdoor games, Kids parks and well-furnished activity room started in the school. To reduce the burden of heavy bags for the kids we have put up wall painting, charts and smart LED boards.

SCIENCE & TECHNOLOGY

We have introduced AI subject to update our young minds with technology. Well-equipped Labs are another attraction for our children. Various activities like model making, exhibitions and projects based on latest scientific achievements have created a vibrant scientific mind in our students.

HIFAZAT / CARING THE UNIVERSE.

As our mother society has deduced this year a 'year of care'. Our young students' movement (YSM) organized various activities. Labours day was celebrated by inviting the daily wagers and sharing a meal with them was really an enriching experience for our children. YSM organized rally and street play on World Earth Day. Plantation of 288 saplings was very remarkable. Distribution of ration and stationaries for the flood affected people, slum dwellers, leprosy colony people and government schools are some of the motivational activities of our social cell.

GRATITUDE AND APPRECIATION

I thank the entire family of St. Xavier: our president Most Rev. Dr Ignatius D'Souza, the entire management, teaching and supporting staff, beloved parents, well-wishers, various departments, good neighbours, friends and our dear students for their valuable encouragement and support. May the good Lord bless us all.
